

What is Essential Organics ‘Healing’?

A new innovative approach for a ‘cold-cream’

Ingredients; Coconut Oil, Hazelnut Oil, CoEmzyme Q10, Francinsence Extract
100% Organic Product

Why we love it: A must for any teenage medical aid kit! Acne gel gets right too those spots to heal the infection.

This treatment gel is absorbed instantly into acne infected areas, eliminating bacteria which reduce inflammation of comedones & other acne related skin disorders. It can effectively be used on acne vulgaris, pimples, pustules, infected hair follicles, athlete’s foot, and herpes infections.

Uses; Pimples, Acne, Skin Infections:

Acne Clean the affected skin surface with cooled boiled, sterile water or skin cleanser. Dry and apply a thin layer of *Infection Gel* over the affected skin surface. Re-apply every 3-4 hours after re-cleaning the affected surface.

'Essential Organics' Key ingredients: Unique MCC Registered formulation for a 'Cold-Cream'.

Persea gratissima (Avocado) Oil is one of the natural oils that are the most easily absorbed by the skin and transported deep into the tissue. Its wonderful emollient and hydrating properties makes it ideal for dry, dehydrated or mature skins. Avocado oil helps to relieve the dryness and itching of psoriasis and eczema. It is high in sterolins which help to reduce age spots and help heal sun damage and scars. Sterolins in this oil that help to soften the skin and which impart a superior moisturizing effect.

Avocado oil is an ideal ingredient to include when formulating a product for people with dehydrated, sun or climate damaged skin, as it is an extremely good moisturizing and nourishing compound, assisting in the regeneration and rejuvenation of the skin. Avocado oil is rich in vitamins A, B1, B2 and D, lecithin, potassium as well as vitamin E. In a study done at the Department of Food Engineering and Biotechnology, Technion-Israel Institute of Technology in 1991, it was found that avocado oil significantly increases the amount of collagen in the skin - which normally is under attack as we grow older.

Boswellia carteri (Frankincense) Oil Extracts are used to control infection and manage tissue regeneration and repair. The extract has anti-microbial and anti-fungal activity. Frankincense extracts are used in trans-dermal preparations to deliver pharmaceuticals into deep tissue and into the blood system.

Simmondsia chinensis (Jojoba) Seed Oil is used extensively in the cosmetics industry. Unlike common vegetable oils, jojoba oil is chemically very similar to human sebum and the oil is an exceptional moisturiser. Jojoba oil can be used to remove kohl and other water-proof cosmetics. It is popular to help treat stretched ear lobes and aids in skin tissue healing regeneration and healing.

CoEnzyme Q10 (CoEQ10) has anti-inflammatory and antioxidant properties. It is an important nutritional supplement before and following surgery. It helps prevent skin damage and aging that may result in wrinkle formation. Studies have shown CoEQ10's importance in skin healing and rejuvenation.

Benefits

- improves skin firmness and dermal density
- improves skin rehydration
- improves basic skin quality and structure
- significantly improves the appearance of the skin both on face and body
- stimulates the regeneration of collagen and elastin cells
